SOMMERFIELD & MAYER,
STONY PLAIN, ALTA.

PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

LOCAL NEWS.

Mr Wm Gellhause left this week on a short visit to his farm near Stettler.

Sommerfield & Mayer on Saturday unloaded another shipment of Chevrolet sedans and coaches, with another consignment on the way. As you may have noticed, the cars which are advertised are the ones being sold hereabouts.

While a freight was approaching Stony from the east Friday evening last, it ran into a bunch of pigs which were travelling along the right-of-way. Two of these were killed outright and one had its hind leg broken. This one was put out of its misery with a blow from a hammer. It is the general belief that the porkers belonged to a nearby farmer, but no one has yet come forward to admit the ownership.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, will be in Stony Plain on Friday, May 11th.

Canada asks your help to Save the Forests from Fire.

Our Good Roads

Three autos left Stony Saturday afternoon, headed for Duffield, but turned back a short distance north of Blueberry church, where they encountered a series of impassable mud holes.

The sink hole at the Conrad Goebel corner, on the road to Edmonton Beach has been keeping auto visitors to this summer resort busy every time they make the trip. The ditches on the road running north from this corner all drain into this sink hole on the Beach road in a splendid manner.

On Sunday it took three hours for two autoists in a Ford coupe to travel from Carvel to Stony Plain, taking the short route.

The meeting of Inga ratepayers, billed to be held last Saturday afternoon at Duffield, was called off, owing to the poor condition of the roads.

This is CANADIAN FORESTRY WEEK.

Coal at Our Doors

Mr Don McDonald, manager of the McDonald Coal Co. at Bright Bank, was a business visitor to Stony on Friday. Mr McDonald has a large shift of men stripping the coal at his mine, in preparation for the opening of the season, altho coal may be had by anyone at the present time. Manager McDonald is arranging to ship all the coal mined to Stony Plain and district, and as this product stands a favorable comparison with any other native coal, it, no doubt, will have a large sale here.

Western Population and Education

There is at the present time such widespread discussion throughout Canada of the subject of immigration, together with its allied subjects of assimilation of non-British peoples into the Canadian family, education of both the native born and new comers, including mastery of the English language by the latter, that it is well people generally should have placed before them the actual facts and be guided by those facts rather than general assertions in support of which no proof is advanced. It is well that these discussions take place, provided they are fair and reasonable and based upon facts rather than hearsay. As a contribution to such constructive discussion of an important national question this article is written.

According to the official census figures for the three prairie provinces of Manitoba, Saskatchewan and Alberta for the years 1916, 1921 and 1926, the British-born and the foreign-born were as follows:

	British-born	Foreign-born	Total
MANITOBA			
1916	436,156	117,704	553,860
1921	500,860	109,258	610,118
1926	514,908	110,932	625,840
SASKATCHEWAN			
1916	446,632	201,203	647,835
1921	558,188	199,322	757,510
1926	611,678	196,059	807,737
ALBERTA			
1916	329,495	167,030	496,525
1921	414,482	173,972	588,454
1926	435,756	158,616	594,372

The figures of British-born or foreign-born for the year 1926 do not include Indians, of which there were 13,216 in Manitoba, 13,001 in Saskatchewan, and 13,227 in Alberta.

The above official figures disclose the fact that whereas the total population of the three prairie provinces increased during the ten-year period 1916 to 1926, by 329,729, the British-born population increased by 350,059, the difference being accounted for by a decrease in the foreign-born population of 20,330.

Evidence as to whether or not new comers to these Western provinces and the Canadian-born children of parents of non-British origin are being assimilated into the Canadian family; also whether or not education of the people is keeping pace with the growth in population, is furnished by statistics of illiteracy compiled by the census enumerators, and set forth in the following table of persons ten years of age or over:

	Total	Illiterate	Per Cent. Illiterate
MANITOBA			
1916	406,809	32,978	8.1
1921	452,105	32,055	7.09
1926	490,197	27,990	5.71
SASKATCHEWAN			
1916	465,284	36,021	7.7
1921	537,885	31,817	5.92
1926	596,059	23,754	3.99
ALBERTA			
1916	368,281	23,733	6.5
1921	434,066	22,487	5.18
1926	461,279	19,589	4.25

In other words, notwithstanding an increase in population in Manitoba of persons ten years of age or over of 83,386 between 1916 and 1926, there were 4,988 fewer persons who could not read and write.

In Saskatchewan, with 130,775 more people ten years of age or over, there were 12,267 fewer people of the illiterate class.

In Alberta, where the number of persons ten years of age or over increased by 92,998, the number of the illiterate decreased by 4,144.

The official figures quoted in the above two tables conclusively show that the danger feared by many people of these Western Provinces losing their British and Canadian character is not being realized; that, on the contrary, the percentage of foreign-born to British-born is steadily decreasing.

They further establish the fact that steadily, even rapidly, the children and the younger generations of non-British settlers are learning to read and write English, thus fitting themselves to take their place in and be efficient members of a common Canadian citizenship.

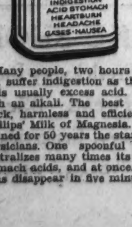
Young Wife: "I took the recipe for this cake out of the book."

Husband: "You did perfectly right. It should never have been put in."

We don't blame some men for refusing to take their own advice.

Most passenger steamships crossing the Atlantic publish a newspaper every day, containing the latest radio news.

The great hero is one who acts and lets the others do the talking.



Too Much ACID

Many people, two hours after eating, suffer indigestion as they call it. It is usually excess acid. Correct it with an alkali. The best way, the quick, harmless and efficient way, is Phillips' Milk of Magnesia. It has remained for 50 years the standard with physicians. One spoonful in water neutralizes many times its volume in stomach acids, and at once. The symptoms disappear in five minutes.

You will never use crude methods when you know this better method. And you will never suffer from excess acid when you prove out this easy relief. Please do that—for your own sake—now.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Nations Take Naval Holiday

For First Time In Century No Battleships Being Built

For the first time for many centuries, certainly as far back as the reign of Henry VIII., there is not a single battleship building anywhere, now that H.M.S. Rodney has passed into commission. "The Naval Holiday," which was proclaimed when the Washington Treaty was signed, has really begun.

Will the Rodney be the last battleship to be constructed? That is not an idle question. It concerns intimately the taxpayers of the British Empire, the United States, and Japan, if not also the peoples of France and Italy, whose representatives also signed the Treaty. Under the terms of that memorable agreement, the building of battleships will be resumed in 1931, and designs are already being prepared, at any rate in the United States.

New Fighting 'Planes

Machines Now Designed To Carry Guns On Wings

Fighting planes bearing gun turrets on their wings are being considered by the Air Ministry, it has been revealed. One big bomber has been designed for carrying three turrets, one on each wing tip and another in the centre. Another machine has a turret in the tail for mounting machine guns.

Royal Air Force officers are particularly interested in the tail turret design, which is said to have no "blind spots" or places where the gunners can not aim at a foe. On the planes with turrets handrails are provided so they can be manned while in flight.

NEW STRENGTH FOR WEAK STOMACHS

Indigestion Disappears When the Blood Is Enriched

The most urgent need of all who suffer from any form of indigestion is a tonic to enrich the blood. Pain and distress after eating is the way the stomach shows that it is too weak to perform the work of digesting the food it takes. New strength is given to weak stomachs by Dr. Williams' Pink Pills because they purify and enrich the blood. This accounts for the speedy relief in stomach disorders that follows the use of this medicine. The value of this medicine in cases of indigestion is shown by the case of Mrs. George W. Johnson, Lequille, N.S., who says:—"I have no hesitation in recommending Dr. Williams' Pink Pills. I was greatly distressed with indigestion. Always after eating I suffered from pains in the stomach and other distressing symptoms. I tried different remedies, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills, which I readily did, and I am feeling very grateful ever since to the person who gave me the advice. The very first box helped me and before I had taken a half dozen boxes I was restored to my former good health and all traces of this distressing trouble disappeared. It is now about a year since I took the pills, and I have not been troubled with indigestion since. I have taken every occasion to recommend Dr. Williams' Pink Pills to those in need of a medicine and shall continue to do so."

A little booklet, "What to Eat and How to Eat," will be sent free to anyone asking for it. You can get the pills from any medicine dealer or by mail at 50c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Automatic lighters are forbidden in Peru, because of the match monopoly granted to Sven Karrell by the Government.

The indications of worms are restlessness, grinding of the teeth, picking of the nose, extreme peevishness, often convulsions. Under these conditions one of the best remedies that can be got is Miller's Worm Powders. They will attack the worms as soon as administered and they pass away in the evacuations. The little sufferer will be immediately eased and a return of the attack will not be likely.

One American automobile company has established five assembly plants and three branch companies in Europe.

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

Cats and owls are better equipped for seeing in dim light than humans, due to the peculiar construction of their eyes.

Greatest Cause Of Accidents

Automobile Is Chief Offender According To Insurance Company Report

What causes accidents, anyway?

Travelers Insurance Co. recently drew up a table of causes of accidental deaths based on its own statistics. The results are interesting and informative.

According to this tabulation, the automobile is the chief offender, 29 per cent. of all fatal accidents being caused by traffic. A close second is the home accident, which accounts for 26 per cent. Sports and recreation are in third place with 20 per cent.

An Oil Of Merit.—Dr. Thomas' Eclectric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Could Produce More Timber

By protection and proper management the accessible forest land of Canada could be made to produce in perpetuity several times the present annual cut. It will take many years to bring about this adjustment. On the other hand if present methods continue, the annual cut will have to be reduced.

Western Canada Airways

The Western Canada Airways, which established the pioneer flying service into the Manitoba mining fields, is expanding its operations considerably this season. They have this year added ten monoplanes to their fleet and are now in a position to give regular daily service between The Pas, Flin Flon, Sherritt-Gordon, and other points.

Survey Of History Of Titles In This Country Reveals Very Many Points Of Interest

Now that the questino of Canadians receiving titles is being revived at Ottawa, a survey of the history of titles in this country may be of interest.

The fact that titles had sometimes been conferred upon people who have not appeared to merit them, and that they did not quite chime with the democratic atmosphere of Canada, fomented the agitation against them ten years ago. It was even proposed to abolish existing ones. That would not only have been grossly humiliating to the possessors, but an insult to the King from whom they are supposed to come. Moreover, it would have been ultra vires of the Canadian Parliament to abolish something which had received royal sanction.

The history of titles in Canada goes back several centuries to the French regime, the oldest Canadian hereditary title being that held by Reginald d'Iberville Charles Grant, Baron de Longueuil. This dignity was confered upon his ancestor, Charles Le Moyne, who owned the largest seigneury in Canada, by Louis XIV., in 1790.

In 1880 Queen Victoria officially recognized the title now held by the eighth baron of the name, who lives abroad and is registered with the elect in Burke's Peerage. About 1793 Governor Simcoe proposed to found an aristocracy in Canada by bestowing baronetcies upon executive councillors whose sons would, of course, inherit the titles. His scheme came to naught, and since that distant day titles have been granted rather sparingly in this country, generally to lieutenant-governors, chief justices, generals, premiers and federal cabinet ministers.

Not counting Canadian women who have married British titled men, not taking into account British titled people who have settled in Canada, there are today approximately 140 Canadian or quasi-Canadian men and women with titles— the latters' titles, of course, being tributary to those of their husbands, living or deceased. This list, too, may not include all titled Canadians in other parts of the Empire.

According to the best information, the Canadian men who hold peerages are: The second Earl of Strathcona, the second Baron Shaughnessy, Baron Atholstan, Baron Beaverbrook, the ninth Baron Aylmer, and the eighth Baron de Longueuil, who, unlike the others, does not hold a seat in the House of Lords.

Canadian baronets or hereditary knights are: Sir Edward Gordon Johnson (5th Bart.), Sir John Beverly Robinson (4th Bart.), Sir Francis Rose (4th Bart.), Sir Charles Stewart Tupper (2nd Bart.), Sir Gilbert Parker, Sir Vincent Meredith, Sir Joseph Flavelle, Sir Francis Knowles, (5th Bart.), Sir Hamar Greenwood and Sir Edward McKay Edgar.

The knights whose titles of course die with them are approximately; Sir Robert Borden, General Sir Arthur Currie, General Sir George Kirkpatrick, General Sir Percy Lake, Major-General Sir Frederick Loomis, Major-General Sir A. C. Macdonnell, General Sir William Otter, Major-General Sir Richard Turner, Major-General Sir Edward Burstall, Major-General Sir George Corey, Major-General Sir W. Heneker, Major-General Sir I. J. C. Herbert, Major-General Sir Richard Lake, Sir Allan Aylesworth, Sir Frank Barnard, Sir H. Cordeaux, Sir Robert Falconer, Sir John Gibson, Sir William Hearst, Major-General Sir Percy Girouard, Sir Lomer Gouin, Sir J. D. Hazen, Sir Edward Kemp, Sir Daniel McMillan, Sir William Mulock, Sir George Perley, Sir Rodmond Roblin, Colonel Sir Percy Sherwood, Sir Clifford Sifton, Sir Thomas White, Sir J. A. M. Aikins, Sir Herbert Ames, Sir George Burn, Sir George Bury, Sir Henry Drayton, Sir Eugene Fiset, Sir G. Garneau, Sir Frederick Haultain, Sir Samuel Holt, Admiral Sir Charles Kingsmill, Sir H. Laporte, Sir Felix Lemieux, Sir Hugh John Macdonald, Sir Donald Mann, Sir Andrew McPhail, Sir Henry Pellatt, Sir Frederic Stupart, Sir Thomas Tait, Sir Frederick Williams-Taylor, Sir George McLaren Brown, Sir Arthur Harris, Sir William Wanless (lately in Toronto), and Sir George Badgerow, the last creation.

Knighthoods have been advocated for Canadians, not only because they are supposed to be marked reward for merit, and to grace high office, but because they die with the holder. But in Canada, which lacks a regular aristocracy and landed estates to support such dignities, hereditary titles may sometimes prove almost embarrassing to the successors. In Britain inheritors of titles can go into politics or enter the army, navy, the diplomatic service or even the dignified bar or church where the surroundings fit their rank.

But in workaday Canada cnoditions are very different. One finds, for instance, a Montreal successor to a barony earning his living as a lawyer in the courts, where the barrister-peer has the right to be addressed even by "his lordship" on the bench as "my lord."

In Winnipeg the baronet grandson of a great Canadian statesman is partner in a law firm, and in Montreal the baronet descendant of a famous soldier is a hard-working C.P.R. official. Similarly the baronet who inherited the title conferred upon an illustrious chief justice in Toronto was, long after his accession to the dignity, a busy agent for paving supplies in New York City, where he modestly and, to the amazement of Americans, kept his prefix in the background.

"Growing pains" in children are the first warning of rheumatism, according to the Ministry of Health experts, London.

Farmers Will Increase Yields And Lower Operating Costs By Using Clean, Graded Seed

Canada's life, her very existence as a nation, depends upon her agriculture. Probably the most important phase of this great industry is grain growing, and the crop yield, the harvesting and marketing costs, depend upon the quality of the seed.

Two phases might well be printed and posted in all places where seed grain is bought and sold; 'the best seed grain is none too good,' and 'You never stop paying for the losses resulting from the use of poor seed'.

It seems hardly credible, yet it is a fact, that officers of the Dominion Seed Branch found a farmer sowing with his wheat 495,000 weed seeds to the acre. In another cares 472,000 weed seeds to the acre were being sown. In other words, they were very carefully sowing a "smother" crop, and much of the labor of cultivation was in reality making for a rapid multiplication of weeds. The use of the fanning mill will correct much of this evil.

Farmers would increase their yields and lower their operating costs by using clean graded seed. The Dominion Department of Agriculture administers through its Seed Branch a "Seed Act" which provides that "all seed offered or exposed for sale in Canada must come within minimum standards provided for the removal of small, shrunken, immature or broken kernels or inert matter; that the seed itself be mature, plump, sound, etc.,; and that the seed comply with minimum standards for purity and germination test.

The highest grade of seed is termed "registered". Seed growers producing such "registered seed" are under Government inspection, and their crops must be 99.99 per cent pure to variety before they receive recognition. Crop registration is assigned by the Canadian Seed Growers Association. Samples of such seed are subjected to laboratory inspection, and the entire lot from which the sample has been taken is inspected and if found up to standard it is tagged and officially sealed.

Farmers would do well to secure a small quantity of this "registered" seed and the following season with the seed produced from the small quantity seed a larger acreage.

The lower the grade of seed the more weed seeds they contain, and generally speaking the lower the vitality and poorer the quality.

Copies of the Regulations governing the Grading of Seeds may be obtained by applying to the Publications Branch, Department of Agriculture, Ottawa.

PASSING OF FAMOUS AMERICAN

Chauncey M. Depew, famous American after-dinner speaker, humorist, politician, railroad magnate, who died in New York in his 94th year, after a brief attack of pneumonia.

Trade With China

Good Market For Canadian Products In the Orient

I am satisfied with the progress of Canadian products in the Chinese trade field and prospects for the increase of trade are extremely good," Col. Moore Cosgrave, Canadian Government Trade Commissioner to China, said on his arrival from the Orient. "Canadian products of all kinds and especially those from British Columbia are being very well received in China now. There is no real boycott against Canadian goods; the Chinese merchant knows his prices and knows where to place his orders."

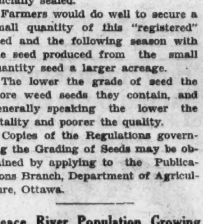
Pitter has dropped his hat after a festive evening. Kobes makes several unsuccessful attempts to pick it up, and then Pitter says: "Now, Kobes, you hold the lamppost still while I pick up the hat."—Lustige Kolner Zeitung, Cologne.

Peace River Population Growing

Predicted That Population Will Increase By Twenty Per Cent. This Year

Government officials predict that the population of the Peace River country in Northern Alberta will increase by twenty per cent. this year. The wheat crop of this area last year was 9,000,000 bushels. The fact that Herman Trelle, of Wembley, won world's championships for his grain in two consecutive years at the International Stock and Seed Show at Chicago, is responsible for much of this activity in settlement.

Over 100 homesteads were filed on at the Peace River Dominion Land Office, during the first two months of this year.



Professor: "You masons must do well since you can afford so much beer."

Mason: "Yes, and if you had learned a good trade you would have been able to do the same."—Dorfbarbier, Berlin.

Mammoth Canadian Liners Abroad

When East meets West! The Canadian Pacific steamers "Empress of Australia," of the Company's Atlantic fleet, and the "Empress of Canada," Queen of the Pacific, alongside the same pier in Kowloon, Hong Kong's deep-water port.

LESSON No. 18

Question: **Why is *emulsified cod-liver oil so needful* for a child who is pale and losing weight?**

Answer: **It is food and tonic rich in vitamins and other nourishing factors *that are particularly helpful* to a weakened child.**

For your child—old reliable

SCOTT'S EMULSION

WORLD HAPPENINGS BRIEFLY TOLD

Montagu Norman, distinguished British financier, has been re-elected governor of the Bank of England by the stockholders. He became governor of the bank in 1920.

The first commercial shipment by air to Toronto arrived at the Leaside airport. It consists of a number of models of fashionable dresses, ordered for a department store.

Third reading has been given in the House to a bill amending the Dominion Lands Act. The measure extends second homesteading privileges to certain classes of settlers in Western Canada.

Spurred on by the successful flight of the German aeroplane Bremen, Stephan Dubois and Alexander Kurz, widely known Hungarian pilots, have announced their intention of attempting a flight from Budapest to New York in June.

Confident that the Italia is able to withstand the rigors of an Arctic flight, General Umberto Nobile, commander of the Italian polar expedition, announced that no trial flights were planned for the dirigible before its start for King's Bay, Spitzbergen, its Northern base.

How Much Water Should Baby Get?

A Famous Authority's Rule

By Ruth Brittain

Baby specialists agree nowadays, that during the first six months, babies must have three ounces of fluid per pound of body weight daily. An eight pound baby, for instance, needs twenty-four ounces of fluid. Later on the rule is two ounces of fluid per pound of body weight. The amount of fluid absorbed by a breast fed baby is best determined by weighing him before and after feeding for the whole day; and it is easily calculated for the bottle fed one. Then make up any deficiency with water.

Giving baby sufficient water often relieves his feverish, crying, upset and restless spells. If it doesn't, give him a few drops of Fletcher's Castoria. For these and other ills of babies and children such as colic, cholera, diarrhea, gas on stomach and bowels, constipation, sour stomach, loss of sleep, underweight, etc., leading physicians say there's nothing so effective. It is purely vegetable—the recipe is on the wrapper—and millions of mothers have depended on it in over thirty years of ever increasing use. It regulates baby's bowels, makes him sleep and eat right, enables him to get full nourishment from his food, so he increases in weight as he should. With each package you get a book on Motherhood worth its weight in gold.

Just a word of caution. Look for the signature of Chas. H. Fletcher on the package so you'll be sure to get the genuine. The forty cent bottles contain thirty-five doses.

(Continued.)

The Independent-Reporter of Skowhegan, Maine, has more than 4,500 subscribers, an advertising revenue of some $21,000 last year, and half as much besides from subscriptions, and the editor wouldn't change places with the editor of any daily paper in the country.

Those figures of income surprised me when one of the New England men at the luncheon table quoted them.

"They're not especially high," said the vice-president of one of the national country-paper organizations. "Higher than the average, but I could give you hundreds of examples of country weeklies with bigger incomes. Our organization has been trying to find out which weekly carried the largest volume of advertising for the past year. The highest figures we have got so far are from the Times-Record, of Spencer, West Virginia, which ran 71,333 inches during the year. Their rate is low for a circulation of above 5,000, only 32 cents an inch, but that gives them an advertising revenue of more than $22,500. I could name fifty country weeklies offhand which regularly carry from 40,000 to 60,000 inches of advertising annually, at rates from 30 to 50 cents an inch."

"Maybe you'll believe me now," suggested Bert Mills. I was ready to believe anything. But I was curious to know where all this advertising came from.

"Perhaps 5 per cent. of it is national advertising—foreign business, as we call it," explained the head of an agency which serves some 9,000 country weeklies. "The rest of it is local advertising, by local merchants to local people. Mighty little of it is mail-order advertising; most of the foreign business is of commodities which are handled by local merchants and is what is known as institutional advertising. And the foreign advertiser pays as high a rate as the local merchant, or higher in many cases."

"You can buy space in daily newspapers at a great variety of rates," put in an editor from Oklahoma, "depending upon the amount of space used, the number of insertions in a given time, and other considerations. The tendency in the country press is toward a flat rate per inch for everybody, no matter how large the advertisement or how often it runs. That is one of the things our state and national editorial associations have been educating our members to."

"There must have been some effective educational efforts among local merchants too," I suggested, remembering old Otto Muncaster's six barrels of lime.

"That of course," replied the Oklahoma man; "but how the small-town business men have learned that Jesse Newton heard Bob Mooney, did you? His store is in an Oklahoma town which had 906 population the last time they took the census; but Bob does $2,000,000 a year in business, all from advertising in the country weeklies around his part of the state.

"What has happened in this country since the war is that business everywhere is done in the same way and in the same commodities," he went on. "There is no longer any great difference between the city markets and the country markets except in the volume of business done in a given area. The only differences now are of degree, not of kind. Country folk buy the same things city folk buy; country merchants carry the same lines you can find in State Street or Fifth Avenue. And the country newspaper presents the story of the country merchant to its readers in the same way the city papers do.

"We who publish country newspapers are the beneficiaries of a new nationalization of interests, of a drawing together of all the people until there is no longer any sharp distinction in appearance, dress, manners, business methods and habits of thought between the people who live in the small towns and on the farms and those who live in the big cities."

"Yeah, they bob their hair and roll their stockings out on the farm now just as they do in town," drawled an editor from Maryland. "I've got a paper down on the Eastern Shore—been running sixty-five years or more. We used to carry advertising of fertilizers and mules, with a couple of standing half pages from the general stores. Here's a copy of my latest issue; look it over."

I looked. They still use mules on the Eastern Shore. Rhoda and Tobe, Kate and Polly and a dozen other teams of mules were advertised for sale; also fertilizer, seed potatoes and other essentially agricultural commodities. No question about it, this was a rural paper. But the biggest advertisements were of the Centerville department stores and drug stores. Silk stockings and bathing suits—for the farmers' wives and daughters. Golf knickers, a big display advertisement offering special bargains in that truly rural commodity!

"Preserve your youthful beauty," a drug-store advertisement exhorted the farm women, listing a sale of lotions and face creams including —

Her Secret Beautifier Envy of Her Friends

Miss C. Delano, Washington, writes: —"About two years ago I was bothered a great deal with a muddy, sallow and pimply skin. I found I could cover the blemishes with cosmetics, but this was only a temporary relief. "My druggist recommended your purely vegetable laxative, and suggested my trouble might be constipation. After taking a short while I noticed a wonderful difference. My complexion has improved, also headaches, indigestion and biliousness never bothered me any more."

CARTER'S LITTLE LIVER PILLS

Sold all druggists 25c and 75c red pkgs.

whisper!—rouge and lipsticks. And automobiles. Not only trucks and flivvers but high-grade cars, half a dozen makes.

"And that's typical," said an Illinois editor who had been looking over my shoulder. "We're making a drive in our paper now for a country golf course. I live in a dairy country, and our farmers don't take enough time off to play, and neither do our business men. You'd be surprised at the interest there is in golf, especially among the younger farmers."

"I've got some figures here that will interest all of you," the advertising-agency man put in. "It took some work to get them together because the census doesn't help us much. The Government classes all communities of 2,500 or more as urban, which is misleading. For the study of the country newspapers' field of activities we take 5,000 population as the maximum unit of a rural community—a village or town. That's too small to be a city, too small to support a daily newspaper.

"There are now 11,500 weekly newspapers published in 8,000 villages of 5,000 or smaller population. That is a reduction of about 3,500 from the maximum of 15,000 which was reached about 1910. The reduction has come about for two main reasons; first, the growth of some towns into daily-paper size, but principally from the consolidation of competing papers, making one prosperous paper where two or three were struggling for existence. The time has passed when the country weekly was chiefly a political organ, which has made this process of consolidation easier.

(To Be Continued.)

WHY TORTURE THE LITTLE ONES

Mothers, do you think it fair to torture your little ones by forcing them to take ill-tasting oils when they need a laxative medicine? Don't you find that the child's dread of these medicines often do more harm than good?

Baby's Own Tablets are the modern substitute for these nauseous doses. They are the very medicine the child requires and are so pleasant to take that they are as easy to administer as a glass of water. They are the perfect remedy for all the minor ailments of little ones, being absolutely guaranteed free from injurious drugs.

Baby's Own Tablets accomplish all that castor oil and other bad-tasting remedies can do. In fact they accomplish more as they do not leave the child exhausted after its struggle against taking medicine. They relieve teething pains, banish indigestion and constipation, break up colds and simple fevers and promote healthful, natural sleep. They are sold by medicine dealers or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Alberta Oil Leases

A total of 9,708 oil leases covering 1,199,267 acres are held in Alberta according to the annual report of the Department of the Interior. Oil production from wells on these lands for the year ending March 31st, 1927, is given as 250,000 barrels with an estimated value of over one million dollars.

Woman's Wisdom

Stuart Brown

Kingston, Ont.—"Dr. Pierce's Favorite Prescription is such a great help to nature in motherhood, I marvel that every prospective mother does not take it. I had two children before I knew that there was such a tonic. My former experiences caused me dread. By chance I read that Dr. Pierce's Favorite Prescription quieted the nerves and strengthened the body for the expectant mother and I proved that statement to be true, also I had comparatively no suffering and did not lose any of my strength or vitality. My baby is now 2 years old and weighs 30 lbs., is the picture of health."—Mrs. Olive Brown, 12 Markland St.

Liquid or tablets at the drug store. Write Dr. Pierce, Buffalo, N. Y., for free medical advice.

SUNDAY SCHOOL LESSON

APRIL 29

THE COST OF DISCIPLESHIP

Golden Text: "Where thy treasure is, there will thy heart be also."—Matthew 6.21.

Lesson: Mark 10.17-27; 12.41-44.

Devotional Reading: Isaiah 55.1-5.

Explanations and Comments

The Great Refusal, 10.17-22. —"Good Teacher, what shall I do that I may inherit eternal life?" was the question which a young aristocrat put to Jesus one day, as he ran and kneeled down before Him. He realized that he had missed the summum bonum, the greatest good, of life, and he believed that there were certain good things (Matthew 19-19), which he could do to win it.

"Why callest thou Me good?" Jesus questioned in His turn, adding, "None is good save one, even God." This question seems a challenge to the young man who had used the word good with as little thought as we do when we say "Good morning." Jesus would have him weigh his words and see whether he meant what he said. The young man was a close student of the Law; he came to Jesus as a perpetetic pupil seeking the latest knowledge. The maxim of the rabbis, "There is nothing good but the Law"—held full sway over his mind. Jesus had to fling him out of the groove and suggest a goodness higher than the goodness of the Law—namely, God's goodness. Thou callest Me good—you are judging from the point of view of the Law—you are saying what you would say to any rabbi. I am not good in that sense. I am good in a better sense. There is none good but God; the goodness I have is God's goodness. That is what you have to learn. To learn it, become My disciple.

Jesus looking upon the young man loved him. "One thing thou lackest," Jesus said. His penetrating glance showed him the man's dissatisfaction with himself, his soul-discontent, his earnestness in seeking moral heights to which he knew he had not attained, and to which he knew not the way.

"The diagnosis of Jesus was unerring. Two things were wrong in this young man. The commands he had kept were chiefly negative. They were summed up in the rabbinical saying: "Thou shalt not do unto others what thou wouldest not have other do to thee.' Our Lord changed the negative path of duty into the positive all along the line. He applied his great principle to this young man's case. 'Give yourself to others,' He said, 'contribute to others' good.'

"But there was another fatal weakness in this delightful and admirable person. He clung to his wealth in a way quite incompatible with any just estimation of the highest good. There was hidden in that love of riches a luxurious self-love and a lack of sympathy with the wants of men that made it endanger the very roots of character.' He was accustomed to a cushioned life. He was being made a prisoner for life. He must find a way of escape."—R. C. Gillie.

"Sell whatsoever you hast, and give to the poor." This was not a universal command of Jesus; it was not spoken to all the rich in general, but only to this rich man in particular. To part with his possessions was a necessary thing for this man; in another man the one thing necessary might be something different. Mary and Martha and Lazarus were rich, but Jesus never gave them this counsel. Jesus never condemned riches in themselves; he condemned the devotion to riches which makes one lose his sense of the value of better things.

The one thing we lack may be the carrying on of our business in accordance with Christian principles; it may be the engaging in genuine prayer; it may be the rendering of some service; whatever it is, each one himself best knows.

Strangled With Asthma is the only expression that seems to convey what is endured from an attack of this trouble. The relief from Dr. J. D. Kellogg's Asthma Remedy is beyond measure. Where all was suffering there comes comfort and rest. Breathing becomes normal and the bronchial tubes completely cleared. This unequalled remedy is worth many times its price to all who use it.

Anxious To Make Trip

The London Daily Mail says that F. P. Young ,an aeroplane designer, who recently advertised for a woman or man to accompany him on a flight from London to New York in July, has received more than 400 applications, 80 of them from women. Young proposes to fly in a flying boat of his own design. It will have six engines, four of which will always be kept in reserve.

It is possible to feed a man sufficiently to maintain life by massaging him with a mixture of fat protein, sugar and other ingredients.

The Flying Dutchman was a spectral ship seen off the Cape of Good Hope in stormy weather and considered unlucky.

Keep Minard's Liniment handy.

Fastest Flying Bird

There are several species of birds that can travel much faster than any airplane. The fastest is the "frigate bird," which has its home in the tropics. This bird is remarkable for its long wings, and is said to be capable of flying 300 miles an hour.

Burns.

Spread **Minard's Liniment** mixed with sweet oil, on brown paper, and cover injured parts. Soothes and heals rapidly.

MINARD'S "KING OF PAIN" LINIMENT

Despite total blindness, Howard Alerman, 17, won the honors of his mid-year graduating class in high school in Mansfield. He studied by the Braille system.

TORONTO WOMAN IS GRATEFUL

To Gin Pills For Relieving Pain and Listlessness

Household duties were burdensome; pain wracked her body; medical skill accomplished nothing; then—and how often this happens!—a friend advised Gin Pills. This former sufferer writes:

"For about one year I had trouble with my back. I got tired so easily, had a terribly listless feeling at all times. I had medical attention all during this period but couldn't obtain relief.

"After using the first box of Gin Pills I got relief and, after taking three boxes, I feel that I am completely relieved. I always keep Gin Pills in the medicine cabinet."

(Name on request)

Don't suffer needless agony! Don't lay yourself wide open to scourges like Rheumatism, Sciatica, Lumbago and acute Bladder ills, by neglecting your kidneys. Severe backache and dizzy spells are warnings. So are headaches, swollen joints, painful, scanty or too frequent urination. Safeguard yourself. Relieve pain quickly. Take Gin Pills. 50c a box at all druggists. National Drug & Chemical Company of Canada, Limited, Toronto, Canada.

NEW LEGATIONS ARE CRITICIZED IN THE SENATE

Ottawa. — Canada's legations and diplomatic service were discussed in the Senate recently. Hon. J. S. McLennan drew the attention of the Senate to this service and asked of the Government the nature of appointment, the emolument and what provision was made for training candidates for the diplomatic corps.

Senator McLennan said that the confederation celebration last year made Ottawa a real capital. With the coming of a United States minister, Canada has assumed certain national responsibilities. He did not believe that a glorified commercial traveller was the highest form of representation needed by Canada in foreign countries. The appointment of a Canadian minister to Washington was another step in national responsibility.

He thought the appointments of last year did not come with any surprise as they had been discussed for some time. The selection of the United States to represent that country here was very satisfactory. The people of Canada were disposed to look upon Canada's adventure into foreign diplomacy as settled but he thought there should have been more preparation and knowledge given before sending envoys to Paris and Tokio.

Senator McLennan further observed: "I take upon myself to say that I believe the establishment of legations other than with Washington have not been authorized by Parliament or people of Canada. To that extent, if for ni other reason, they are objectionable. I also think that such an establishment is premature; that we can get on as well without them by continuing the use of existing diplomatic machinery which Great Britain has placed at our disposal."

He believed at the earliest opportunity Canada should begin training juniors for diplomatic service.

Hon. Raoul Dandurand, Government leader, said the address from the Throne had made mention of the appointment of ministers to Paris and Tokio. He had not discussed it at length because the question had not been raised and it really appertained to the Prime Minister. He welcomed the approval of public men of the creation of a legation at Washington. This was the work of all parties, having emanated from Sir Robert Borden, being endorsed by Mr. Meighen and completed by the present Government. Concerning the legation in the United States, both parties had approved it.

Vice-Regal Home At Coast

Governor-General Might Spend Summer In B.C. Is Report

Vancouver, B.C. — Reports that Lord and Lady Willingdon are seriously thinking of establishing a vice-regal summer home on the Pacific Coast have been revived as a result of their visit again this year and their inspection of several homes described as suitable for such a purpose.

The feasibility of making Vancouver or Victoria the social capital of the Dominion during the summer months has been mooted on several occasions, and while no pronouncement has ever been made by the Governor-General or Lady Willingdon, it is understood that they would not be averse to leaving the stately grandeur of Rideau Hall, Ottawa, for a few months during the year to enjoy the surroundings of Canada's farthest West.

Brings High Price

London.—A copy of the original six-leaved edition of Gray's Elegy was sold here at auction for $6,450. When first published two centuries ago, it was sold at sixpence. The highest price yet paid for the Elegy was $7,500, at the MacGregor sale four years ago.

Ottawa.—Canada's population is estimated by the bureau of statistics at 9,519,000. The estimate is as of June 1, 1927. Actual population at the last census (1921) was 8,788,483

Auto Gasoline Tax In Saskatchewan

Only Car Drivers To Pay Levy Of Three Cents Per Gallon

Regina.—Only gasoline used for automobile traffic will be liable to the three-cent tax to be imposed May 1, by legislation that becomes effective May 1.

The purchaser will pay the tax on all gasoline at time of purchase and will be given a refund on the gallonage used otherwise than that for his automobile, provided the amount named in the application for the refund amounts to more than $3.

Every person selling gasoline has to collect the tax at the time of sale and deliver a stamp therefor. These stamps, shall be purchasable from the Department. Every importer, producer, manufacturer, refiner and distributor is required to forward before the tenth day of each month a return showing the number of gallons sold in Saskatchewan and the persons to whom sold. Every dealer selling or delivering gasoline is required to keep a record of the stamps so sold and to make a return before the tenth of every month of the outturn of the same, together with the amount of gasoline sold. It is the duty of the purchaser to see that he receives a receipt duly stamped on the purchase of gasoline.

Inspectors may be appointed under the regulations to see that the payment of the tax is made.

Contravention of the law renders one liable to penalties of from $10 to $200.

Railway Plans Extended

Parliament Gives Companies More Time To Commence Construction In West

Ottawa.—Third reading was given in the House of Commons to a number of private bills.

These measures included:

A bill to incorporate the Highwood Western Railway Company with a capitalization of $3,000,000, and with its head office at Calgary, Alberta. The proposed railway line will run from a point near the Calgary and Edmonton Railway in Townships 20 or 21, Range 1, Alberta, to a point near Sparwood, on the C.P.R. in British Columbia.

A bill extending for two years the time in which to commence the construction of the Calgary and Fernie Railway. The proposed line is to run from Calgary, Alberta, to Fernie, B.C.

A bill extending for two years the time in which the C.P.R. commence construction of the following branch lines:

(a) From Acme, Alta., to a point in Township 33, Range 26 or 27, Alberta, a distance of 25 miles.

(b) From a point on the Rosemary north branch of the C.P.R. in Township 21, Range 15, to a point in Township 23, Range 16, Alberta.

A bill extending for two years the time in which to commence construction of the Manitoba and Northwest Railway from Tuffnell, Sask., to Prince Albert, Sask.

Weather Suits Farmers

No Need To Worry Over Lateness Of the Spring

Edmonton.—"No occasion for anxiety or worry," says Hon. George Hoadley, minister of agriculture, in response to an inquiry about the probable effect of the way winter is lingering in the lap of spring. Some inquiries have been coming also from the east as to how seeding operations will be affected, and the minister is replying that if a break comes reasonably soon and the weather then stays warm the conditions are just what Alberta wants. That is to say, the soil will be in excellent order with abundance of moisture and seeding will not be any later than it has often been before.

The present snowfall is not adding much to the wetness of the land, according to reports from the country, as it is evaporating quickly. Somewhat more moisture than is really needed is reported from some localities, but in general the land is just right for promise of another bumper crop. As usual, Mr. Hoadley says, it's the city people who are doing the most worrying; the farmers know that seed time and harvest will not fail.

Controls Wheat Shipments

George McIvor is only 33 years old, but as general manager of the Canadian Co-operative Wheat Producers, Ltd., sales department, at Winnipeg, he is said to control the shipment of half of the Canadian wheat crop until it reaches the buyers in all parts of the world. He started out as a telegraph messenger.

New Seed Grain Warehouse

Plan To Construct a Modern Plant At Moose Jaw

Ottawa.—There is every likelihood of a new seed grain warehouse being established at Moose Jaw at a cost of something over $100,000. The present building is not suited to the purpose and a move is on foot for a new one. It is being sponsored by J. Gordon Ross, M.P. for Moose Jaw, and backed by Hon. C. M. Hamilton, provincial minister of agriculture, who had a conference on the subject with Hon. W. R. Motherwell.

The plan is to construct a most modern plant, the Dominion Government, the province and the association operating the present warehouse, each contributing one-third of the cost.

There is reason to expect that, when the supplementary estimates come down, the Dominion Government will provide its share. This would ensure the warehouse because the other prospective contributors are ready to put up their share.

Cost Of Harbor Survey

Palmer Received £9,425 For Report On Nelson and Churchill

Ottawa.—Senator Dandurand, in reply to a question, stated in the Senate that the sum paid Frederick Palmer for his report on Nelson and Churchill Harbors, was £9,425. He was selected as there was a controversy between Canadian engineers and public officials as to the relative merits of these harbors and it was deemed advisable to secure the opinion of an engineer of unquestioned authority who was not a party to the controversy.

Price Of Bread May Advance

Regina.—Bread prices are showing a tendency to rise as a result of the rising price of flour due in turn to the enhancement of wheat values. At Swift Current a one cent per loaf advance has been made.

U.S. Duty On Seed Wheat

Sentiment Growing In U.S. For Reduction Or Abolition Of Duty

Washington, D.C.—Abolition or reduction of customs duties on seed wheat entering the United States is one of the possible results of the tangled situation in this country produced by a deadlock over farm relief legislation.

Sentiment in favor of making Canadian seed wheat available at the lowest price to the American farmer has been growing in recent years and it is known that a number of western members of Congress would support the proposal if it could ever be brought to the floor of Congress.

Department of agriculture officials admit there has been an increase lately in pressure from the main wheat growing centres for consideration of the tariff on seed grain.

With the administration preparing to veto the farm relief bill for the second time and growing hostility amongst western farmers in consequence, there is a possibility that the president may exercise his power to amend the tariff under certain conditions of which this would be one. One congressman expressed the opinion that the United States farmers would gain in the long run if they sacrificed some of their seed grain markets at home and gained a reputation in the world market which Canadian grain enjoys.

Oriental Vote Is Problem At Coast

As Asiatics Occupy Important Place In B.C. Industries

Vancouver, B.C.—Should Orientals resident in British Columbia be allowed to vote?

The question is now agitating trade union circles here and at a recent meeting of the Vancouver and New Westminster Trades and Labor Council it was decided to leave the issue to the various locals, who will record their opinions on the subject and forward them to the council.

Oriental enfranchisement has been opposed by organized labor in this province for some years. The question has been revived by the action of the Canadian Labor Party in supporting equal voting privileges for Asiatics. The large number of Asiatics in this province and their important place in industry and trade give the matter greater significance here than in other parts of Canada.

B.C. Farmers Want Horses

Paying Higher Prices Than For Years Past Says Dealer

Kamloops, B.C.—British Columbia farmers haven't yet found a complete substitute for the horse and they are paying higher prices for the animals now than for years past, according to D. B. Johnstone, Kamloops horse dealer.

"Work horses that a year ago I would have sold for $10 or $15, were sold recently for as high as $72, and good cows, not the best at that, fetched as high as $85," Johnstone stated. Good draught horses are scarce in British Columbia and are being shipped as far east as Montreal.

DENMARK MOVES TO SASKATCHEWAN

One of the largest families among this year's arrivals of immigrants over the Canadian National Railways was that of Hans Peter Petersen Potholm, of Denmark. Mr. Potholm has come to Canada with his wife and nine children and is settling near Melfort, Saskatchewan. He was met on his arrival at Winnipeg by two sons who had preceded him and who were living in Manitoba.

NAT. ASSEMBLY LIBERAL WOMEN ELECT PRESIDENT

Ottawa.—Hon. Mary Ellen Smith, M.L.A., Vancouver, was unanimously chosen by the national assembly of Liberal women as their president.

In answering the applause which greeted her election, Hon. Mary Ellen Smith said:

"I thank you from the bottom of my heart."

She went on: "There was a feeling throughout the country that the women were being chloroformed. But we refused to re-act to the anaesthetic. I did not want the presidency. But now that I have it and that you have set up the machinery to make this a permanent organization I am going to stay until that machinery is in smooth running order, and I shall welcome criticism. From now on we women want to go on record as being constructionists."

Nine hundred women met at the banquet which followed upon the close of official business of the assembly. The Hon. Marry Ellen Smith made her first appearance as president of the newly-formed National Federation of Liberal Women, and was received with cheers as she entered the hall.

The honorary president, Mrs. Norman Wilson, of Ottawa, announced the permanent officers of the new organization:

President, Hon. Mary Ellen Smith, M.L.A., Vancouver.

Honorary president, Mrs. Norman Wilson, Ottawa.

The honorary vice-presidents are: Miss B. McKinnon, P.E.I.; Miss Carrie Carmichael, N.S.; Mrs. A. E. Smith, N.B.; Madame Beique, Professor C. Derrick and Mrs. S. Jacobs, Que.; Mrs. David Dunlop, Mrs. Arthur Hardy and Mrs. M. Pourpore, Ont.; Mrs. Robert Forke, Man.; Mrs. J. G. Gardiner, Sask.; and Mrs. Finlayson, B.C.

The vice-presidents are: Mrs. Riley, for Prince Edward Island; Mrs. J. Hanway, for Nova Scotia; Mrs. F. E. Holman, for New Brunswick; Mrs. P. Paradis, for Quebec; Miss Florence Edwards, for Ontario; Mrs. W. G. Sanburn, for Manitoba; Mrs. Mary Sutherland, for Saskatchewan; Mrs. Robert Marshall, for Alberta, and Mrs. Henderson, for British Columbia.

The association will henceforth be known by the name "National Federation of Liberal Women of Canada."

The objects of the federation are defined as:

"To encourage the organization of Liberal women throughout Canada; to uphold the cause of Liberalism; to raise the status and advance the political education of women; to aid in securing and maintaining good government and to encourage a broad spirit of Canadian nationality within the British Empire."

Considering New Route

Moving B.C. Coal To Montreal Via Panama Canal Might Be Feasible

Ottawa.—The feasibility of moving British Columbia coal to Montreal by way of the Panama Canal is being investigated by the Canadian Government Merchant Marine. This statement was made by R. C. Henry, director of the bureau of economics, Canadian National Railways, before the railways and shipping committee of the House.

"Really, we have no boat in the C.G.M.M. service that is available," remarked Mr. Henry. Boats on the Pacific coast service were now fully employed. The boats which were now operating from Vancouver to Montreal were carrying full cargoes and were not fit to be used as coal carriers. There were, however, two 4,400 ton boats available, but in his opinion they were altogether too small to be considered from a commercial viewpoint for such long voyages.

The question was brought up by A. W. Neill, Independent, Comox-Alberni, B.C., who suggested that the government should give a fixed rate on British Columbia coal.

The state church of Russia before the revolution was Greek orthodox

Victoria. — The area of forest land in British Columbia dedicated to future forest production is 5,360,000 acres, according to a Government report.

Calgary. — Plans are actively under way by the Calgary Terminal Grain Company to build a seven hundred thousand bushel elevator at Vancouver, it is announced by A. R. Betts, manager of the company. Mr. Betts said that an eminently suitable site had been secured on the north shore, approximately opposite Spillers elevator.

Five special trains carrying around 1500 pilgrims passed through Montreal recently on their way to Quebec City and the shrine of Ste Anne de Beaupre also visiting the shrine of St Joseph in Montreal on their return trip. They were from the church of St Aidan, Jersey City and under the care of Father Thomas M. Curry, parish priest, were on their annual pilgrimage to these shrines.

Shipments of freight destined to points in the north-west of Canada via Port McNicoll, Ont., on the Canadian Pacific lake and rail route will now be accepted, the earliest date being April 9. There will be five steamers in the company's lake service between Port McNicoll and the head of the Lakes during the coming season. Through passenger service will be resumed this season from Owen Sound May 7 and from Port McNicoll, May 19.

Installation of Mack Tractors and Lapeer Trailers for rapid movement of freight from Canadian Pacific depots to and from outlying terminals has now been completed in Montreal and will shortly be in use in Toronto. The tractor is immediately attachable to one or more of these tractors which each can hold up to 15,000 lbs of freight and can be as swiftly disconnected. They are expected to immensely expedite the movement of C. P. freight.

Immigrants are flowing into Canada at record rates since lately all Canadian Pacific steamers from Great Britain and Europe are bringing them over at the rate of shiploads of close on a thousand per ship. The majority are farm laborers of British and North European stock and are mostly going in the land in the Prairie Provinces with a fair proportion going to Ontario and the Maritime Provinces.

Winnipeg. — Despite the heavy movement of immigrants to the West during the past two weeks, more positions are open on western farms than the railways and employment agencies can fill, immigration and employment officers state. Thousands of vacancies, the officers said, had been reported. Likelihood of an earlier commencement of seeding operations is generally conceded in the West, they added, and unless immigration continues at its present high pace the opening of operations on the land may find western farms shorthanded.

As the result of a conference between members of the Shire Breeders' Association, financial representatives and members of the Winnipeg and Brandon Boards of Trade, a movement is under way for the placing of 100,000 sheep annually on Manitoba farms. They will be sold in groups of fifty to each farmer, somewhat similar to the plan now in operation in North Dakota. J. D. McGregor was appointed temporary chairman of a committee to make further arrangements for the carrying out of the plan.

CHAPTER XXIII.—Continued.

Another night she saw a trim young lady, with many bags, a pair of snowshoes, a camera slung over her shoulder, a tapestry purse and a huge white fox fur, coming down the platform. She was met by a plain, hard working woman, with wisps of gray hair escaping from the hard little nub at the back of her head, a skirt that did not match her coat and needed to be pulled straight—evidently put on in a hurry; and with feet disfigured with bunions, hands red and bare, and shoulders bent.

Helmi watched the meeting. The girl was the last to leave the train, and the mother had almost given her up, and had gone to the wicket to see if a wire had come. While the mother was at the wicket the girl came bursting into the station. "Mother," she called, "Here I am, I was helping a lady with her baby."

The two women caught each other in a warm embrace, and as they were leaving the station Helmi heard the girl say, "The trustees paid me for the whole time, and now, old girl, you will have that fur coat—we'll get it tomorrow."

Helmi saw the mother's arm tighten. The girl's eyes were defiant and proud. She dared anyone to even think she thought her mother shabby.

Helmi wondered, wondered.

When the last person had come through and the doors were closed, Helmi walked slowly to the North Star Rooming House, lonely, tired and sad. She resolved she would not go again, but the next train night found her sitting in front of, the clock, watching its tardy hands making their reluctant rounds. She had written to good old Sim, giving him her address—he would see Jack if he came.

At the end of two weeks Helmi began to look for a situation. Her money had lasted until now, but the little stock in the black, shiny purse had dwindled and dwindled. Fortunately her clothes, by carerul brushing and pressing were still presentable. The kindness of the Corbett family, and the exquisite joy she found in caring for the little Lili, kept her heart from breaking with loneliness. The nights were the worst; even the regular breathing of the warm little treasure beside her, the feel of the velvety little fingers which clasped hers, could not entirely win her away from her sorrow. Why had God forsaken her? Or was He just doing this to try her faith, as he tried that of Job. Then she thought of Abraham, whom God commanded to sacrifice his little son. That was a terrible story, and Helmi wished she had never heard it, even if God did repent and say, "Oh, well now that I know you would do it that's all right—I just wanted to be sure." In happier days Helmi had decided the story wasn't true at all. God wasn't like that, someone had just made up that story. Now, she wasn't so sure.

Often in these long dark nights, Helmi thought of Aunt Lili. It had all seemed so easy when Aunt Lili came back for the visit to Finland, and now. Aunt Lili was gone, her little girl too. She had come to Canada so sure she could conquer all difficulties, and she had come on evil days. But little Lili here would have a chance. . . . . One might succeed out of four . . . . surely God would let one Finn girl out of four do well in Canada! Maybe it was too much for her to expect to succeed and be happy—but she could be the ladder on which dear little Lili would rise. like the woman at the station, bent, shabby, tired, with the glorious successful daughter, who loved her mother loyally in spite of her old-fashioned dress and knotted hands.

It was only when Helmi could get her thoughts out of the lonely, dark roads where disappointments and loneliness lurked, into the pleasant green meadows of the future where plans for little Lili could be made, that peace would come to her, and to her burning eyes the blessed dews of sleep.

On the day that Lili was three weeks old Helmi went to the Employment Bureau to look for work. She wore the blue motor coat, a black velvet hat on which she had transplanted the flowers from her summer hat, and her best shoes and gloves. She was still pale, and her cheeks had grown thinner.

"It's a question," said Mrs. Corbett, eyeing her critically, "how a person should dress when lookin' for work. If you're not well dressed they'll think you are needin' a job too bad, and that you must be shiftless and no good; on the other hand, if you're too well dressed they wonder why you need to do housework. Women are sure the limit, despisin' their own work and makin' everyone else despise it too. A woman may forgive the woman who makes her dresses, she is even more likely to forgive the one that makes her hats, and who charges her three times what they're worth—but God help the poor dud that cooks her meals. No woman ever thinks well of another woman who merely does the work she could do herself if she wanted to. So, Helmi, dear, don't be hurt if they talk snippy to you—I know how you feel—the Finns and the Irish are blood cousins when it comes to temper—but just say what you want to, to yourself. You can come home and abuse them all you like to me. I know them—haven't I done washin's for them for years?"

Helmi, as usual, went early, but the room—a large one, with windows that ran to the ceiling—was already half filled. Her first thoughts were thoughts of discouragement—What chance had she among so many? But as she listened she learned that many of the women were employers, for the topic of conversation was the old dimculty of getting efficient household help. The conversation rose and fell like the fire in the chimney on a windy night.

"I am out so much," one woman said, in a loud voice, "I simply must have reliable help. The last one left on the electric iron until it burnt through the table." She was a worried woman, short of breath, as if she had been perpetually climbing stairs. Helmi wanted to talk to her, but she was surrounded by other women, all intent on their own grievances.

"It makes a difference when one has boys in the house you see I have my own two, and Fred, my nephew."

"Well, I have just one rule—I must have a British subject. When I came home from the Red Cross the other day I found my house in a state. My German washwoman had the cook and the housemaid in terror of their lives. She had told them she was washing for me now, but I would be washing for her next year, and the Kaiser would be living in the Governor's house, and we would be begging jobs from the German aristocracy, who, it seems, are going to come over here to live. She flew when I came in, and she hasn't come back yet for her money. She never told me she was German, you may be sure. She was Russian—they are all Russians now."

Helmi at last got her chance at the desk. A kind-faced Scotchwoman, who called her 'dear', asked her what sort of work she wanted, and had she registered. Helmi said she wanted housework by the day if she could get it. She could cook, yes, and wash, and make things clean.

The Scotchwoman called the lady whom Helmi had noticed first—the stair-climber.

"Here's a smart girl for you, Mrs. Angus," she said, "I doubt if you'll get better—she looks both clean and smart."

Mrs. Angus appraised Helmi critically. "Are you honest?" she asked at last. "I have lost so much by petty thieves."

"Yes," said Helmi, hotly, "I am honest, and I tell the truth, and I am square."

Mrs. Angus turned to the Scotchwoman angrily. "Is this the way you allow your patrons to be spoken to, Miss Ritchie?" she said.

"I doubt she meant no harm," said Miss Ritchie, soothingly: "she was taken by surprise—that's all."

"Have you worked before?"

"Yes, in Winnipeg—in the Yale Hotel—and at Eagle Mines in a boarding-house."

"Yes, I thought so," said Mrs. Angus, "you are certainly quite the hotel type, sharp and pert. Well, have you references?"

"No," said Helmi, when Miss Ritchie had explained.

Mrs. Angus looked sternly at Miss Ritchie. What did she mean by exposing patrons to the possibility of getting a girl who, by her own confession, had no reefrences.

Miss Ritchie asked Helmi if she could send and get her references.

Helmi shook her head. "I would rather not," she said.

To Be Continued.

THERE is *nothing* quite equal to Aspirin for all sorts of aches and pains, but be sure it *is* Aspirin. The name Bayer should appear on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box when you buy it:

Aspirin (is the trade mark registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

Editorial Prize Contest

Centenary Of Henri Dunant, Founder Of Red Cross, To Be Fittingly Observed

This year, on May 8th, fifty-nine nations of the world banded together under the Red Cross Flag, will celebrate the centenary of the birth of Henri Dunant, founder of Red Cross and winner of the Nobel Peace Prize of 1901.

Dunant's untiring efforts in the interests of humanity were responsible for the first Treaty of Geneva, and they awakened the world to a new consciousness of its responsibilities in regard to medical service, both in peace and war, until now practically every nation has joined in subscribing to the covenant of nations which has developed from Dunant's initial idea.

In order that the people of Canada may know about Dunant and his work, a prize contest for the best editorial appearing in any Canadian Daily newspaper on May 8th, or in any Canadian Weekly paper between May 4th and May 12th, on Dunant or co-related subjects, has been arranged by the Canadian Red Cross Society. The French Newspapers of the Dominion are also invited to compete in their own language under similar conditions.

The prizes to be offered are: $50.00 for the first prize; $50.00 for the second; and $30.00 for the third in each section, or $640.000, divided into proportions as here mentioned, including the French newspapers, both daily and weekly.

The contest will close on May 20th, when all entries received will be judged by a committee of competent judges. Every entry must be in the hands of the National Office at 410 Sherbourne Street, Toronto 5, by that date, and must comply with the conditions announced herewith. Every possible effort is being made to acquaint the public with the history of Henri Dunant through special literature being mailed to all editorial offices through the usual press avenues and in the pages of the May issue of "The Canadian Red Cross."

Contest Regulations

1. In order to facilitate the work of adjudication, contestants are requested to clip their editorials, paste them up as if preparing "copy" for the printer and add headline and date of editorial page on which it has appeared, despatching the entry so that it shall reach the office of the Chief Commissioner, Canadian Red Cross Society, 410 Sherbourne Street, Toronto 5, Ont., not later than May 20th.

2. All entries must be accompanied by a sealed envelope with the name of the entrant on a letterhead from the office of the competing newspaper. No contestant's name will be known until all decisions have been made.

3. The covering envelope should be marked:—"Editorial Contest."

4. The following is the list of judges who are being invited to act: Dr. James W. Robertson, Ottawa, Chairman of the Central Council of the Canadian Red Cross Society; Professor J. G. Fitzgerald, Toronto; Mr. J. F. B. Livesay, Toronto; Dr. Lorne Pierce, Toronto; Dr. Charles G. D. Roberts, Vancouver; Mr. R. J. C. Stead, Ottawa; Professor G. M. Wrong, Toronto, Mr. John M. Elson, Toronto.

French Committee:—Hon. Mr. Justice F. Surveyor, Hon. Athanase David, and Dr. Victor Morin, will be asked to suggest a sub-committee from the French section of the Canadian Authors' Association, to act in collaboration with the General Committee.

WOMAN COULD HARDLY WALK

Mrs. Horn Tells how Lydia E. Pinkham's Vegetable Compound Restored Her Health

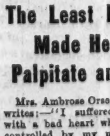
Hamilton, Ont.—"I have taken Lydia E. Pinkham's Vegetable Compound and would not be without it now. I had a female trouble so badly I could hardly walk and I was all run-down and could hardly get around to do my housework. I would be in bed three or four days at a time. I was told by a friend to try

your Vegetable Compound. I did, and by the time I took two bottles I was beginning to get around again. I took ten bottles in all, and now I am all right again and doing my own work. I have six grown-ups to work for, so I have plenty to do. I also used Lydia E. Pinkham's Sanative Wash, and I think it is good. But I owe my health to the Vegetable Compound, and I think if more of it was used women would be better off. I would not be without it if it cost much more."—Mrs. NELLIE JAMESON, 805 East Cannon Street, Hamilton, Ontario.

Do you feel broken down, nervous and weak sometimes? Lydia E. Pinkham's Vegetable Compound is excellent to take at such a time. It always helps, and if taken regularly and persistently, will relieve this condition.

The Least Excitement Made Her Heart Palpitate and Flutter

Mrs. Ambrose Orser, Elgiaburg, Ont., writes:—"I suffered for some time with a bad heart which seemed to be controlled by my nerves. The least little excitement would cause it to flutter and palpitate, and at times I would have real bad spells. I suffered in this way for some time when, one day, I saw



advertised, so decided to try them. I had only taken a few boxes when I noticed that I felt better, so I continued taking them and in a short time my heart felt entirely different.'

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Firestone Dealers

Are Trained and Equipped to Save You Money and Serve You Better

Firestone sells tires only through regular established dealers—the outstanding tire merchants in every community. This great manufacturing organization—controlling raw materials in primary markets—having branches and distributors in all parts of Canada, assuring fresh, clean stocks and quick, efficient distribution—is behind every dealer. Firestone Dealers know tire construction and tire service, having been trained at Dealer Educational Meetings.

Firestone Dealers have the latest equipment; the knowledge—the Firestone spirit and idea of service. No other dealer can give you the same values and serve you so well.

Little Helps For This Week

"Neither is it in our power to redeem them."—Nehemiah v. 5.

But yesterday, but yesterday
She stood beside our dusty way
Out-reaching, for a moment's space,
The key to fortune's hiding-place;

With wistful meanings in her eyes,
Her radiance veiled in dull disguise
A moment paused, then turned and fled,
Bearing her message still unsaid.

So fast, so far she sped and flew
Into the depths of other blue;
And we, too late, make bitter cry,
"Come back, dear Opportunity."
—Susan Coolidge.

There are four things that come not back, the spoken word, the sped arrow, the past life, and the neglected opportunity.—Arabian.

Ready-Made Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Eclectric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains, it is unsurpassed; while for cuts, sores and the like it is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

A man doesn't do his courting all to himself because he is ashamed of it, but because he wants it all to himself.

Use Minard's Liniment for Corns.

Few people have been injured by the accidental discharge of their duty.

FACE TERRIBLY DISFIGURED

Pimples Itched and Burned. Cuticura Heals.

"I had a breaking out of pimples on my face, neck, shoulders and arms. They itched and burned so badly that I had to scratch, causing severe irritation. My clothing aggravated the eruptions terribly, and I could not sleep on account of the irritation. My face was terribly disfigured. The trouble lasted about four months.

"I read an advertisement for Cuticura Soap and Ointment and sent for a free sample. After about the fifth application there was a marked improvement so I purchased more, and in four weeks I was healed." (Signed) Miss Millie Dickout, Brown's Brae, Ont., Sept. 16, 1927.

Use Cuticura to clear your skin.

Sample Each Free by Mail. Address Canadian Depot: "Cuticura Ltd, Montreal". Price, Soap 25c. Ointment 25 and 50c. Talcum 25c. Cuticura Shaving Stick 25c.

Minard's Liniment for cuts and bruises.

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holloway's Corn Remover.

After you do a man a favor he is likely to be afflicted with a partial loss of memory.

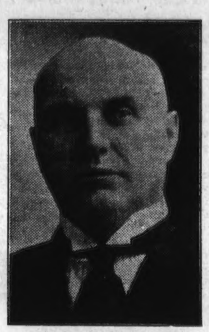
Going west — Sun., Tues., Friday at 1.29 p.m. Every midnight at 24.24.

Forests are Canada's Greatest Employer

War on Forest Fires.



Hon. Charles Stewart

Minister of the Interior, whose department, in co operation with Provincial Governments, various Forestry associations and public-spirited citizens, is this week conducting a campaign to focus public attention on the need of prevention of forest fires.

Save the Forests!

Canada's forests are going fast. Yet how many people in this country betray concern?

As long as Canadians pay no attention to forest facts, the mischief will go on.

Sixty per cent of Canada's original wealth has been destroyed by fire!

Thirteen per cent. has been cut by axe and saw!

Twenty-seven per cent is left, as the capital to supply an increasing and insatiable demand for lumber and paper and other products.

Twenty-seven per cent! In a few generations we have reduced our capital to 27 p.c. of the original. And what have we to show for it? We have some cleared agricultural land which once was forest, but this in the case of the best farming regions at least, was chiefly hardwood forest. Our cut-over coniferous forest area is largely rough, sandy, rocky land of little use except where minerals may have been deposited.

Canadians should think over these things. "Canadian Forest Week" is an effort to have them do so. It means much to the future of this country. Unless the remainder of our forest capital can be protected and widely used, in 25 years, at the present rate of destruction by fire an ax, we will have used up all our available timber.

Hon. Charles Stewart, Minister of the Interior, is doing a national work in organizing the fight against forest fires. The people of Canada could do infinitely more, however, by exercising care to prevent them.

Lead, or Towed?

Some men imagine they lead the bride to the alter, while the truth s that they are being towed in.

Spruce Grove News

Mr Mat MacKean, our popular butcher, has purchased a new Chevrolet truck, for use in his business.

The young son of Mr F Sherwood, who recently had a finger amputated, in Edmonton, is now convalescing, and was brought home on Saturday.

Will the party or parties who took the Fresno scraper from the road allowance two miles east of Stony, last fall, kindly return same and save further trouble? — (Signed) Councillor T. Wudel.

Mr Reg. Pilcher resumed his duties at the local garage, on returning from his honeymoon. He had wished to take up his residence in the village with his bride; but no place of residence was available.
